

## **DSDC Calendar – a note for those with a bit of time on their hands.**

There is a new feature on the web site when the clubs calendar had been put on the main page showing events.

A number of people, mainly the committee members have been given access to the calendar and can enter events for their areas of responsibility. For example Chris Head can post the diving program and Nancy can post the social program.

Alternatively they can send me the details and I will enter for them (if they don't know what they are doing!!!)

Then the rest of us can see what is going on and can doing a bit of diary planning!

The calendar is based on the Google Calendar add in feature. The most simple way to see it is to go to the club web site.

The Calendars are set to 'public'.

If you are already a Google Calendar user here are the ical addresses to the DSDC calendars that make up what you see on the front page of the club website. Copy these addresses into your Google Calendar by going to 'other calendars' on the left hand side of the screen and click on the 'Add' feature and 'URL'. Do one at a time.

Google talk about syncing calendars with your desktop and mobile phone. What I have discovered is that you cannot yet sync the DSDC calendars with Your desktop and Your phone. This feature is promised at some time. You can however, if you are keen, copy the DSDC data to Your Primary Google Calendar and then sync it like that to your devices.

If you are very very keen there is a third party app that you can purchase at

<http://oggsync.com/index.php/upgrade-to-pro/> to allow you to sync with outlook. I have not seen it work so can't guarantee that it does what it says. It also seems to be a little expensive.
